Profile

I am a student at the XIM University, Bhubaneswar with a major in Computer Science and Engineering. I have a passion for Frontend Development and information technology. I have used computer programming since I was in secondary school. This passion has given me the ability to develop programs for a multitude of things, including robots, programming languages, and databases. My other love is Web Development. I have many plans to implement newer technologies in my life such as cloud computing and managed IT services .I am open to learning new things and getting involved with new projects that can help me learn or apply all that I have learned throughout my university career.
